

2012 Mid-Winter Muster

February 18 – 19, 2012

The **Pennington County Fire Service** is pleased to bring a variety of classes to this year's event. We are planning various one- and two day classes to meet the needs of all firefighters, from new member to officer.

The Mid-Winter Muster will be **SATURDAY, FEBRUARY 18th and SUNDAY, FEBRUARY 19th, 2012**

at Western Dakota Tech, located at 1600 Sedivy Lane.

Doors will open at 0700 Saturday and Sunday, February 18th and 19th. Registration will run from 0700 – 0800 Saturday and a welcome will be done in the commons area on Saturday morning at 0800.

Cost for the classes will be \$20 for all classes except the Ice Rescue course. This course will cost \$45 per student and will include class materials and an Ice Rescue Technician Certificate.

Vendors will be on hand throughout the weekend with the latest and greatest in firefighting apparel, tools, and equipment.

- *HazMat Awareness Plus*
- *Firefighter Confidence Course*
- *S-270 Air Operations*
- *Wildland Fire Weather*
- *BARFF (Basic Aircraft Rescue Fire Fighting Operations)*

Course Listing

NFPA 1584 Rehabilitation and Medical Monitoring (1-day class, offered both Saturday and Sunday \$20)

A Guide for Best Practices: NFPA 1584 Standards Standard on the Rehabilitation Process for Members during Emergency Operations and Training Exercises.

Presented by Masimo EMS

Certified Ice Rescue Class

(1-day class, offered both Saturday and Sunday \$45)

The Ice Rescue Technician Course (IRT) is a fast-paced, educational program specifically designed for Public Safety and Rescue Professionals, including Fire, Rescue, and EMS Personnel.

This course is designed as a foundational course for all public safety and rescue professionals. The focus of this one-day training program is on surface rescue for cold water and ice incidents with an emphasis on personal survival and safety of the rescuer. It is designed to provide the public safety and rescue professional with the knowledge and skills necessary for safe rescue and recovery operations in, on and around ice and cold water.

These comprehensive courses are designed to meet the NFPA 1670 Standard for Technical Rescue operations and consists of a 2-hour classroom session, followed by two 2.5 hour practical sessions on the ice and in cold water. A 1-hour course debriefing and written exam concludes the course.

Candidate must be in good physical condition and must be comfortable in deep water while wearing a Cold Water/Ice Rescue Suit or Dry Suit with a PFD. Participants **MUST** supply their own cold water/ice rescue suit. If you are attending but not engaging in the Ice Rescue Skills for Certification, bring a PFD (personal flotation device) to be in the viewing area.

Instructors: Hunter Harlan and Brian Povandra-RCFD Technical Rescue Team

Vehicle Extrication Basics

(1-day class, offered both Saturday and Sunday \$20)

The course is designed to provide students with the basic philosophy and knowledge of vehicle extrication along with the opportunity to perform a few extrication techniques with hand and power tools.

Presented by Pennington County Search and Rescue

HazMat Awareness Plus

(1-day class, offered both Saturday and Sunday \$20)

The course is designed to provide students with the basic HazMat Awareness level training along with additional knowledge of some basic action that can be done safely and effectively prior to a HazMat Team arrival that will lessen the impact of a Hazardous Materials spill or release in your area.

Presented by Rapid City Pennington County HazMat Team

Firefighter Confidence Course

(2-day class, Saturday and Sunday \$20)

This will be two full days of hands-on practicals. Students will rotate through a series of stations throughout the two days, including the following:

- Ventilation
- Search & Rescue
- Fire Attack
- Forcible Entry
- Hydrant Operations
- Ladder Operations
- Roof Operations

Firefighters are required to be certified structural firefighters or students of the SD Certified Structure Class and must bring full PPE, including SCBA and facemasks.
Live fire practicals will be done, weather dependent.

Course Listing cont.

S-270 Basic Air Operations

(2-day class, Saturday and Sunday \$20)

Course Description:

This course covers aircraft types and capabilities, aviation management and safety for flying in and working with agency aircraft, tactical and logistical uses of aircraft, and requirements for helicopter take-off and landing areas. Note: The regulations, procedures and policies addressed in this course are primarily those governing federal agency and ICS operations. State, county, or other political subdivisions using this course will need to consult their agency having jurisdiction with respect to regulations, procedures and policies.

Presented by Ray Bubb, SD Wildland Fire

Course Prerequisites; none

See nomination guidelines below for registration.

NOMINATION GUIDELINES

Nominations for wildland classes can be done through IQS or IQCS. Students registering before February 1st will receive a confirmation letter with additional information. Students registering after this time will be permitted based on space available (including walk-ins the day of class). For information or if you need assistance, please contact Mark Enright at: kramrv@rushmore.com or 605-390-0191 (text or voice).

Wildland Fire Weather

(1-day class, offered Saturday only \$20)

Weather, the most variable and dangerous factor influencing wildland fires. What do you remember from S-290? Get a refresher from the SD IMET plus some other valuable information that will help you interpret weather forecasts and be able to read the atmosphere. Never taken S-290? Attend anyway and learn some of what you missed.

Presented by Darren Clabo, SD Wildland Fire IMET

Basic Aircraft Rescue Fire Fighting Operations

(1-day class, offered both Saturday and Sunday \$20)

This course covers aircraft emergencies. Even if you do not have an airport; that does not mean that one will not crash in your area. Do you know what to do? Do you know what any of the FAA regulations are regarding aircraft emergencies? Attend this class and find out, plus, get a tour of the RC Regional Airport (EAFB tour may be available to pre-registered students only for security clearance).

Presented by Rapid City Fire Department Airport Firefighters and
Retired EAFB Firefighter Don Higgins
